NEVADA has good reason for being proud of her Representatives in Congress, and the GAZETTE understands the people if they do not extend such a royal reception to them when they return from Washington as will be heard from ocean to ocean. Stewart has been indefatigable in his efforts to promote the interests of his constituents and so far in the many debates in which he has participated, never retired discomfited from the arena. Bill after bill and resolution after resolution has been presented by him, and while not successful in every issue, has won recognition where all thought he would fail. In his work he has been ably seconded by Senator Jones, whose untiring efforts in committee as well as on the floor of the Senate, made possible the glorious results achieved.

Woodburn has been no less prominent, and Saturday electrified the House by one of the most brilliant and convincing speeches of the whole session. He spoke in opposition to the Mills Tariff Bill, and alternately raked it from aft with withering shafts of sarcasm and bursts of eloquence, and now and then punctured it with brilliant flashes of wit which set the House in a roar. His arraignment of the leading members of the Democratic party whom he proved were members of the famous Cobden Club, whose mission is to throw the country open to the manufactures of the world, caused a scene of great confusion and excitement, but throughout the turmoil he retained his self-possession and answered every question in a manner which showed that he was intimately acquainted with the subject-matter, and finally succeeded in driving his opponents to their seats in silence. The speech was not only the most brilliant which has been heard in the House of Representatives this session, but the scene which took place after he had concluded, the most disgraceful. Woodburn had hit home, every shot told, and nothing but the battered hulks of the Cobden club's crew remained to confront him. It was a signal victory for the Nevada Congressman, and his speech has at once launched him into National fame.

The GAZETTE again says Nevada has good reason to be proud of her Representatives in Congress.

The Legislatures of Nevada, in times gone by, was said to have been composed of men who, when legislation or debates did not go to suit their views, resorted to muscular means to accomplish their ends. If such conduct by ordinary members of the State Legislature merited rebuke, what can be said of the way the bright lights of the Democracy in both Houses of Congress have been conducting themselves in debate during the past two weeks? The use of the words liar and falsefitter occurs in every paragraph of their speeches, and, hereafter, if a Republican member should desire to utter a few truths about the war record of any Brigadier it would be only self-protection should he, before beginning his talk, lay a pickaxe, bowie knife and a self-cocker upon his desk. He probably would not have to use any of them, but they might commend him to a little respect from the fire-eaters of the Lost Cause.

The full text of the bill introduced in the Senate, by Senator Stewart appropriating \$100,000 for a public building in Reno, appears elsewhere in this issue. The dispatch intimates that the amount asked for may be cut down, but half a loaf is better than no bread at all. A very desirable site, in fact the best location in Reno, can undoubtedly be secured in Powling's addition, and if the amount appropriated is not sufficient to pay for the land and erect a suitable building, there is no doubt but what the enterprising owner of the land alluded to will make such concessions to the Government as will warrant it in erecting the building in that most desirable locality.

CONGRESSMAN WOODBURN's letter, which appears elsewhere, wherein he gives his reasons for declining further political preferment, is mainly to the point. The GAZETTE, knowing Mr. Woodburn to be honest and conscientious in all he does, refrained from criticizing his telegram announcing his withdrawal from the Congressional race, and with one or two exceptions is the only paper in the State which now has not to "rawfish or cut bait." "Look before you leap," is a good motto, brethren, and should be posted in a prominent place in the editorial sanctum. It may save you a world of trouble in the coming campaign.

STILL WORKING.

Stewart's Bill for a Public Building in Reno.
Special Dispatch to the Gazette.
WASHINGTON, May 7.—Senator Stewart has introduced the following bill in the Senate:

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury be, and he is hereby, authorized and directed to purchase, or acquire by condemnation, a site for, and cause to be erected thereon, a suitable building, with fire-proof vaults therein, for the accommodation of the post-office and other Government offices, in the city of Reno, State of Nevada. The plans, specifications and full estimate for said buildings shall be previously approved: Provided, That the site shall leave a building unexposed to danger from fire in adjacent buildings by an open space of not less than forty feet, including streets and alleys; and no money appropriated for this purpose shall be available until a valid title to the site for said building shall be vested in the United States."

The chances for a favorable report on the bill and passage in the Senate are good. The bill is referred to the Committee on Public Buildings and Grounds, of which Senator Stanford is Chairman. The Committee may not change the amount to be appropriated by the bill—\$100,000—but if they do desire to cut it down there is some margin for them in which to do it and still leave enough to erect a good substantial building. Of course I cannot say whether the bill will pass the Senate this session, but if it passes the Senate it will have a place on the House calendar where it can easily be reached next session.

Mahone's Midnight Order.
WASHINGTON, May 6.—The fight between Riddleberger and Mahone relative to Virginia politics is getting very hot. Riddleberger has issued a circular denouncing the action of Mahone in removing the Chairman of the Republican Committee in Riddleberger's county through a midnight order, saying: "I shall ask the people of Shenandoah to hear me on the issue of the canvass. It will then be daylight. Or, cowardly and assassin make publications at midnight."

Attempted Lynching.
VANDALIA, Ill., May 6.—Five hundred colored people attacked the jail here yesterday with intent to lynch Gus Harris and Loomis, suspected of having murdered John Atkins, colored. Atkins' body, with marks of violence, was found floating in the lake. Wilson has made a partial confession, implicating Harris.

Last Known Survivor of Waterloo.
HALIFAX, May 6.—Norman McDonald of Big Brothers, Cape Breton, aged 110 years, is dead. He was the last known survivor of Waterloo, having fought in that battle under Wellington when 37 years of age. He was born in the Isle of Harris, Scotland, in 1778.

He Can't Get Away.
Dr. Prentice's business in Reno has increased to such an extent that it is not possible for him to leave, consequently he has extended his stay one week more, until Monday, May 14th. Persons afflicted with cross-eyes, deafness and catarrh should take this opportunity and get cured while there is yet a chance. Dr. Prentice will remain in Reno until Monday, May 14th.

A SENSATION.

Yesterday several of the leading citizens of Reno assembled at Dr. Prentice's office in the Lake House (Riverside Hotel), Reno, to satisfy themselves about the truth of the so-called wonderful operations. One of the operations that Dr. Prentice performed in the presence of these gentlemen was straightening the cross-eyes of Mr. Bishop. His eyes had been crossed twenty-two years. The patient seated himself in a chair and in thirty seconds after Dr. Prentice touched the eyes they were perfectly straight, to the delight of the patient and admiration of the spectators. The local of this paper has witnessed several of these wonderful operations that Dr. Prentice has performed.

YOU WILL NEVER MISS THE WATER TILL THE WELL RUNS DRY.

On his return from his recent extensive tour through Europe, Dr. Prentice brought with him many valuable remedies used in the far east for the treatment of the eye, catarrh, deafness and many other chronic diseases. It is a common fault of the afflicted to put off, postpone and delay in attending to their ailments until it is too late. This precaution robs us of the pleasures, joys, and comforts of health during the better part of our lives, and leaves us to drag out a painful, diseased and untimely existence. Dr. Prentice, with his valuable treatment and remedies, will be sadly missed when he leaves. He will only remain until Monday, May 14th. His offices are at the Lake House (Riverside Hotel), Reno, Nevada.

He Fooled With a Toy Pistol.
Willie Everett, grandson, and Charles Lake, son of Mrs. Jane Lake, were playing yesterday afternoon with a toy pistol when the weapon was accidentally discharged, the charge taking effect in the knee of the last-named youngster, producing a serious but not dangerous wound. Dr. Thomas was summoned and relieved the little sufferer, and to-day but little pain is experienced.

Go Down in Your Jeans.
The committee appointed by the Executive Committee of the State Agricultural Society to solicit subscriptions from the citizens of Reno to pay for the improvements now being made on the new fair grounds, will call in a few days on those who subscribed for about one-half of the amount. The balance will not be needed before July or August, when the final collection will be made.

The Fashionably Bred Standard Trotting Stallion

MAJESTY!

DESCRIPTION: Color, dark bay with one white hind foot; 15½ hands high, weighs 1,050 pounds, fine form and action, very gentle disposition, sound in every respect; two years old on the 8th of May, 1888; well broken to drive; has never been trained.

PEDIGREE—Sire, "Sterling," by Egmont, he by Belmont, sire of Nutwood, Goldsmith Maid and other fast ones. Dam, Lady Baldwin, by the Moor, dam of Bay Rose, 2:29.

This combination of two of the fastest strains of blood this country has ever produced cannot fail to trot fast, and be one of the most popular breeding stallions to be found. This colt has grown very fast, and is large for his age, but well-proportioned and symmetrical. He has not been worked for speed on account of his rapid growth. He shows enough speed to warrant the belief that he will maintain the high opinion we have of him. The first time he was shown at the California State Fair he took the premium for the

Best Standard-Bred Trotting Colt

In the Sweepstakes. This colt is offered for the sum of \$600, which is lower by 50 per cent than any colt of equal breeding ever brought that we know of.

The ranch consists of about 900 acres and a valuable water right. The ranch has one of the best of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 800 tons of hay, pasture for 200 head of stock, vegetables and other products in value about \$2,000. By the expenditure of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and other buildings. A good orchard and other improvements. For \$30,000, ½ cash and the remainder in five equal annual installments. Interest at 8 per cent per annum.

The ranch yields 1st year 800 tons of hay, and pasture valued at not less than \$1,500. The total valuation of this year's yield is not less than \$5,000.
